

We thought you should know where you fit into this wonderful thing we call **PARTNERSHIP** so made you a little diagram...

## WHAT'S YOUR ROLE IN THE CHANGE WE MAKE?

## WE WORK IN PARTNERSHIP

The first thing to know is that ending poverty and injustice isn't just on you. Partnership is about working together, and you're part of a powerful network of like-minded people taking action across our world.

What we learn informs how we partner.

## WE CONNECT OUR PARTNERS

We host workshops so our partners can partner with each other! It strengthens our network to work together, learn from one another and determine our shared future.

Our partner churches are deeply embedded in their communities and are formidable change agents.

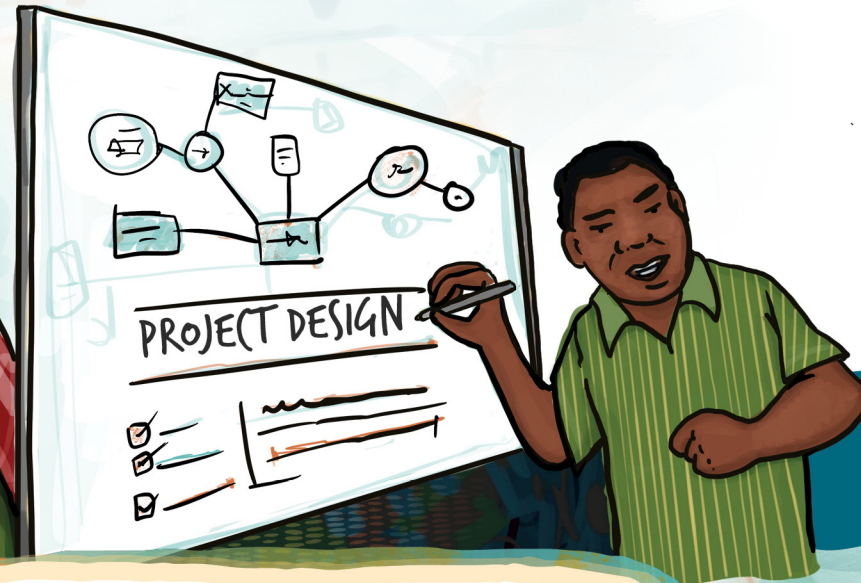

## WE LISTEN

Our partners meet with community members to hear about the challenges they face and find out what they can do to help.

## WE PLAN AND DREAM TOGETHER

We believe sustainable change arises when all aspects of development are owned and led by local communities themselves. Your donations help our partners fulfil their vision of a better world.

## WE PARTNER TO MAKE A BIGGER IMPACT

which means your gift goes further

For many of our programs, your donations can be combined with funding from the Australian Government to reach more people.

But we need to contribute your donations to win these grants.

So your donation can have up to **six times the impact!**

# HOW WE MAKE CHANGE TOGETHER

## WE CHECK-IN

Our team works hard to identify problems and areas for improvement, and to help our partners use your donation in the best way possible to make long-term change!

## WE AMPLIFY

We lift up the voices of our partners through faith-filled advocacy and collective action to point out the structural barriers that keep people in poverty.

We invite you to pray and act alongside our partners.

## OUR PARTNERS ROLL OUT LIFE-CHANGING PROJECTS

Your support makes it happen, giving people the tools to overcome poverty and injustice through long-term, community-wide development.
