

WHEN WE STAND WITH PACIFIC WOMEN WE HELP THEM CREATE VITAL CHANGE

Good leadership
Without women in leadership and decision-making roles, vital issues that affect the wellbeing of women, their families and communities are left off the agenda.

Life-giving theology
Women in our network are confronting patriarchal norms and changing hearts through Biblical teaching that liberates and affirms the dignity of all God's creation.

Reduced violence
Women who belong to strong networks can speak up against abuse, and report and help prevent violence against women and children.

Better living conditions
Gender equality is a powerful catalyst for reducing poverty. When women earn an income, they spend it on health and education for their children and improve the standard of living of their families.

Stronger communities
Communities are able to find better solutions for complex problems like climate change and disaster response when women's contributions are valued and they can collaborate with men as equals.

FULLNESS OF LIFE FOR ALL PEOPLE

Your gift provides Pacific women with the resources and training to make change happen. Please give generously.
